**EXECUTIVE**  
VULNERABILITY ASSESSMENTS

With SEC, a team of former Secret Service agents, Homeland Security agents, FBI agents, Green Berets and Navy SEALs come together to provide you with the highest level of service.

# Empowering Protection

Secure Environment Consultants (SEC) is honored to provide **comprehensive physical site assessments**. At SEC, we understand the unique needs of high-net-worth individuals and the importance of balancing robust security measures with respect for their privacy, lifestyle and time. Our approach ensures thorough, discreet and minimally intrusive evaluations, tailored to the specific concerns of each senior executive.

We look forward to serving you.

Secure Environment Consultants

# Elevating security with expertise and precision in today's ever-evolving risk landscape with a comprehensive security strategy is not optional—it's essential.

Safety is a foundational priority, but navigating the complexities of modern threats can be daunting. Partnering with a team of experts with a proven track record offers not just peace of mind but actionable, results-driven strategies.

Since 2013, Secure Environment Consultants has provided high-level physical security assessments and tailored consulting services to organizations across the United States. As new threats emerge, maintaining robust safety plans, policies and training has never been more critical. With more than 100 years of combined expertise in law enforcement, risk mitigation and corporate security, SEC is uniquely positioned to deliver solutions that are as effective as they are forward-thinking.

At SEC, we understand security is multilayered and no two organizations face the same risks. Our mission is to empower clients with strategic, actionable solutions to safeguard their people, assets and operations. Whether conducting site assessments for high-profile individuals or providing ongoing consulting, we bring unmatched expertise, discretion and attention to detail. Trust SEC to help you navigate today's challenges and ensure your organization remains resilient and secure.

# Threat Landscape

The assassination of UnitedHealthcare's CEO has led to an increased focus on the protection of corporate executives. A large portion of social media has been supportive or, at least, indifferent to this targeted violence. Additionally, the suspect in the case has received "positive attention," which could lead to copycat attacks. Organized criminal groups are using open-source intelligence to target victims for burglary.

Most executives do not want or need 24/7 physical protection, but a vulnerability assessment may identify areas of weakness to improve their safety and security.

# Service Execution Blueprint

## COMPREHENSIVE PHYSICAL SITE ASSESSMENTS

SEC consultants bring extensive experience conducting security assessments across a variety of environments, from private residences to corporate offices and other commonly used spaces. Each assessment is designed to identify vulnerabilities while ensuring recommended solutions enhance security without creating unreasonable barriers or inconveniences for the end user. SEC will work closely with each executive to understand their specific risks and individual security preferences. To further limit the executive's time commitment, SEC can collaborate directly with their staff and security details to gather necessary information and implement initial steps in the assessment process.

In addition to evaluating the building site, our assessments include a review of surrounding areas to identify factors such as access to emergency services, proximity to law enforcement and availability of emergency medical resources. The result is a comprehensive evaluation that integrates seamlessly into their personal and professional environments.

## THE SEC DIFFERENCE

### ACTIONABLE RECOMMENDATIONS

Following each assessment, SEC will provide a detailed, personalized report for the executive. This report will include identified vulnerabilities and practical, prioritized recommendations for security enhancements that integrate seamlessly with the residence and lifestyle.

### TURNKEY SECURITY SOLUTIONS

SEC will not only recommend necessary security upgrades but can manage their implementation, if approved. From coordinating with trusted service providers to overseeing installation and integration, SEC ensures a seamless, stress-free process for executives.

### MINIMAL DISRUPTION

SEC values the time and schedules of your executives. Each assessment will be conducted efficiently, with minimal disruption, at a time that is convenient for the executive.

### DISCRETION AND PRIVACY

SEC's professionals operate with the utmost discretion. All activities will be carried out confidentially, with a commitment to maintaining the privacy and trust of your executives.

# Our Team

## **JASON RUSSELL, FOUNDER + PRESIDENT**

A former Secret Service agent, Jason Russell brings White House-level security expertise to every one of our clients. Jason has provided hundreds of security assessments to businesses, schools and organizations across the United States and in several other countries – and has been called in to assist during crisis situations, including mass shootings and security threats. He serves on Michigan's School Safety and Mental Health Commission. He is a frequent keynote speaker at conferences across the country on topics such as emergency preparedness, active shooter response and safety and security procedures.

## **TOM LANDRY, SENIOR LEAD CONSULTANT**

Tom Landry is a 25-year veteran of the federal law enforcement community, retiring from the United States Secret Service in 2022. Tom completed numerous assignments in his career culminating as the Special Agent in Charge (SAIC) of the St. Louis Field Office. He served on the Presidential Protective Division during both President George W. Bush and Barack Obama administrations and successfully worked in almost fifty countries. Tom is a member of the Office of Personnel Management's Senior Executive Service (SES). At SEC, Tom enjoys working with organizations to help them establish and maintain safe environments that will keep employees safe.

## **MARC CONNOLLY, EXECUTIVE VICE PRESIDENT**

A highly accomplished security and law enforcement professional, Marc Connolly spent 27 years with the Secret Service, rising to deputy assistant director and retiring as deputy special agent in charge of the presidential protection division. Marc planned, directed, coordinated and implemented protective operations for the president and oversaw threat assessment for Secret Service protectees. He supervised a workforce of more than 1,000 law enforcement officials protecting the White House and supervised the development and deployment of technological advances to further the Secret Service's mission.

## **SHARON CONNOLLY, ASSISTANT VICE PRESIDENT**

Following a 20-year career with the Secret Service, Sharon now serves as the Assistant Vice President for SEC. As Senior Protective Intelligence Research Specialist, she led a team of junior analysts in managing protective intelligence casework and specialized in writing threat assessments for the President and other Secret Service protectees. Sharon served in lead roles during multiple National Special Security Events, providing actionable intelligence briefings and reports to agency officials while monitoring events in real time from various sources. At SEC, Sharon leads all our Social Media Monitoring services, manages complex security project deliverables and provides high-level support to our President and the Vice President.

# Our Approach

## CLIENT-CENTERED SOLUTIONS

SEC customizes every aspect of our process to meet the specific needs, expectations and preferences of executives.

## EXPERIENCED PROFESSIONALS

SEC's team has extensive experience working with high-profile clients, providing both technical expertise and unparalleled professionalism.

## DISCREET & EFFICIENT ASSESSMENTS

SEC's methods are designed to minimize time demands on your executives while delivering comprehensive and actionable results.

# Our Deliverables

A secure, tailored report for each residence, detailing risks and recommended actions.

Full management of security enhancements, including vendor coordination, quality control and final implementation.

A post-implementation review to ensure all solutions meet the highest standards of safety, functionality and client satisfaction.

# Tailored Solutions, Strategic Investment

Our approach is designed to provide you with unparalleled expertise and customized solutions that align with your unique needs and priorities. Whether you're seeking comprehensive security assessments or ongoing consulting support, our team works closely with you to ensure that our recommendations are both impactful and considerate of your budget.

With SEC, you're not just investing in security services—you're investing in peace of mind, proactive risk management, and the protection of what matters most. Reach out to our team to learn how we can partner with you to build a robust, tailored security strategy that fits your goals and resources.

# We're ready to deliver

Secure Environment Consultants (SEC) is uniquely qualified to provide executives with unmatched expertise in residential security assessments. We are committed to delivering tailored solutions that prioritize discretion, privacy and minimal disruption. We welcome the opportunity to partner with you to ensure the safety and security of your executive team.
